

PERPETUITY TRAINING LTD

Security Management (BTEC Level 4) 5 Day Course

Why this course

This course provides the essential introduction to the key ideas, techniques and issues that are at the heart of professional security management today. The course provides unique insights and comprehensive coverage of the role, resources, and skills that are central to providing effective security management in the commercial environment.

From identifying issues and understanding ideas about the risks, causes and prevention of crime, through to designing and implementing loss prevention and security initiatives that really work, this is the ultimate security managers course.

This course is delivered by security experts who have extensive experience in security and hold the highest academic, vocational, and professional qualifications in the subject.

Who will benefit

The course will be of immediate benefit to those working as security managers or those seeking to make a career in security management. The course is designed for professionals by professionals and is intended to introduce and develop security management to the highest levels.
