

The Security Institute

Advanced Diploma in Security Management

IQ Level 7

An exciting NEW qualification

The Security Institute and Perpetuity Training are pleased to announce the launch of the Level 7 Advanced Diploma in Security Management taking the Security Institute's qualifications to the next level.

Who will this benefit

The course will benefit those wishing to take their professional development and membership to the highest levels within both the security profession and the Security Institute. The Level 7 qualification, (Masters level), provides learners with a credible, internationally-acclaimed qualification and professional recognition.

The qualification is currently undergoing final accreditation by Industry Qualifications (IQ) and will sit at Level 7 on the internationally recognised Qualifications Framework.

The Security Institute

The Security Institute is the largest membership organisation for security professionals in the UK, offering networking, news, events and a unique validation of experience much valued by employers and clients.

Education Partner

The Security Institute and its training partner Perpetuity Training work closely together to deliver training within the security profession.

Perpetuity Training is at the forefront of security management training in the UK, and has a unique background in security research, education and qualification. Our trainers and management team are all highly qualified; they possess the necessary underpinning knowledge and practical experience, and are recognised experts in their areas of security.

Advanced Diploma Programme

The course is delivered by distance learning, giving you the advantage of being able to study from anywhere in the world. The Advanced Diploma takes nine months to complete, and is assessed through three written assessments. The final dissertation is on an agreed security management topic of your choice.

- **Critical Thinking and Critical Writing Skills**

In the first module, learners will study critical thinking and writing skills and the assignment will be based on conducting a critical analysis and review of a security, policing, or crime related report.

- **Research Methods and Project Proposals**

In this module learners will study security research methods and project proposals. The assignment is based on creating and submitting a project proposal which will form the basis of the work undertaken in the next Module.

- **Conducting Research and Projects**

In the final Module, learners study how research projects are written, including the presentation of findings. Learners will then undertake a security research based project and submit the research report as the final course assessment.

Eligibility

Security Institute Diploma ideally with 7 years' experience working in security management or a related management field OR a security related degree plus 7 years' experience working in security or a related field OR a non-security related degree plus 10 years' experience working in security management or a related field.
